

DELTA - III

Automatic Profile Slicing Machine With Forward Motion Blade \varnothing 450 mm

FEATURES

Used for slicing and flat cutting processes of aluminum, plastic and wooden profiles.

- Wide profile cutting with \varnothing 450 mm saw blade
- Servo driven automatic profile feeding and batch slicing process
- Automatic clamping system
- Cutting speed adjustment
- Digital adjustment of the saw blade travel distance based on the profile
- Secure cutting by the cover equipped with a safety sensor
- Feeding system with profile deformation prevention
- Touchscreen control panel
- Process programming and large memory

Standard Equipment

- \varnothing 450 mm saw blade
- Cooling system
- 1 units of 2 m conveyor

Optional Equipment

- Cutting system compatible with \varnothing 500 mm saw blade
- Mold system matching the profile
