Automatic Servo Controlled Aluminum Corner Crimping

PRODUCT WEB LINK

## FEATURES

Used for corner crimping processes of aluminum profiles. Crushing blades have the ability to move forward/backward, forward/backward and up/down independently with step motors. A suitable pressing program according to the user profile is added to the machine memory and recorded. It has up/down and forward/backward movement with the help of a pre-centering wireless piston

- Steel plate with high pressure resistance
- Easy adjustment of crimping blade distances based on profile
- Automatic profile centering with miters
- Convenient profile rotation by up/down movement of centering miter
- Crimping of wide and high profiles

## STANDARD EQUIPMENTS

- 7 mm crimping set (2 pcs)
- 5 mm crimping set (2 pcs)
- 3 mm crimping set (2 pcs)
- Left and right profile support
- Clamping (2 pcs)

## OPTIONAL EQUIPMENTS

- Crimping set for custom profiles
